INDIA

Dashboard Overview

Filters & Search

- Country Filter – Explore hotels by nation
- Brand Filter – Narrow by luxury brand
- Hotel Search – Find specific properties instantly

KPI Cards & Map

- KPI Cards – Total hotels, countries & brands at a glance
- Interactive Map – Geographic distribution of luxury hotels worldwide

Charts & Insights

- Continent Chart – Hotel counts by region
- Brand Breakdown – Visual brand dominance
- Dynamic filters update all visuals in real time

Key Insights

1. TOP MARKETS

India & Mexico lead as the strongest luxury hotel markets globally

Strong brand-country clustering observed

1. ISLAND LUXURY

Maldives dominates the island luxury segment

High density of ultra-premium resorts & spas

1. CLASSIC LUXURY

Europe reflects classic luxury traditions with iconic palace & boutique hotels

3 DASHBOARD

This project demonstrates the power of combining data analysis with interactive visualization. The global luxury hotels dataset is diverse and representative, spanning 98 hotels across 30+ countries. Strong relationships between brands and countries are clearly evident throughout the analysis. The interactive Streamlit dashboard enables comprehensive, user-driven exploration of the data — empowering deeper insights into global luxury hospitality patterns.
